**Please use in conjunction with The Castle Vale (hereinafter referred to as ‘CV’) Risk Assessment produced on 15<sup>th</sup> April 2020.**

This risk assessment has been produced in adherence to the UK Government’s five key guiding principles to ensure COVID-19 secure measures:

1. We have carried out a COVID-19 Risk Assessment and shared the results with people who work here;
2. We have cleaning, handwashing and hygiene procedures in line with guidance;
3. We have taken all reasonable steps to help people work from home;
4. We have taken all reasonable steps to maintain social distance in the workplace;
5. Where people cannot social distance, we have done everything practical to manage transmission risk.

## Understanding your level of risk

The level of risk is decided by looking at the likelihood of injury/illness and the severity of the resulting consequences. The table below is used to determine each perceived risk and the severity of any consequences that may occur.

LIKELIHOOD	SEVERITY				
	5	4	3	2	1
5	25	20	15	10	5
4	20	16	12	8	4
3	15	12	9	6	3
2	10	8	6	4	2
1	5	4	3	2	1

Likelihood of injury/illness	rating	Severity of injury/illness	rating
Very Likely	5	Death/Fatal Illness	5
Likely	4	Major Injury/Disability	4
Possible	3	Lost Time Injury	3
Unlikely	2	First Aid Treatment	2
Very Unlikely	1	Non-Treatment Injury	1

It is advised that risks identified will require an action appropriate to the risk. Guidance is noted below for reference;

**High Risk**            Action immediately

**Medium Risk**            Action within 2 months

**Low Risk**            Re-assess at next review
